Safety Data Sheet (SDS)

Revision Number: 3.0	Last updated 3 November 2022
1. Product and Company Identification	o <u>n</u>
Product Name:	Fmoc-NH-(PEG)3-CH2CH2COOH
	Fmoc-12-amino-4,7,10-trioxadodecanoic acid
Manufacturer/Supplier:	AnaSpec, Inc. www.anaspec.com 34801 Campus Drive Fremont, CA 94555 Tel: 510-791-9560 Fax: 510-791-9572 Email: service@anaspec.com
	Kaneka Eurogentec SA, Rue du Bois Saint Jean 5 4102 Seraing Belgium Tel. +32-4-3727400 Fax. +32-4-3727500 E-mail info@eurogentec.com
	Kaneka Eurogentec Helpdesk Tel. +32-4-3727665
Catalog Number	AS-65038-1
Relevant identified uses of the substance/preparation and uses advised against	For laboratory use only.
Emergency information	Please contact the regional Eurogentec representation in your country or Kaneka Eurogentec S.A. directly (from 8 am to 6 pm)
2. Hazards Identification	
	commend handling all chemicals with caution. Use proper dling chemicals. To our knowledge, the hazards of this material
	angerous substance according to the GHS cards: Not a dangerous substance according to the GHS
GHS Signal Words: None	
GHS Hazard Statements: None	
GHS Precautionary Statements: None	

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

3. Composition

Ingredients/Components:

Chemical Name: Fmoc-NH-(PEG)3-CH2CH2COOH

Fmoc-12-amino-4,7,10-trioxadodecanoic acid

Molecular formula: C24H29NO7

Molecular weight: 443.5 CAS-No 867062-95-1

EC-No NA

4. First Aid Measures

Inhalation:	If dust is inhaled, remove from contaminated area.	
	Encourage patient to blow nose to ensure clear passage of breathing.	
	If irritation or discomfort persists seek medical attention.	
Ingestion:	If swallowed do NOT induce vomiting.	
	If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to	
	maintain open airway and prevent aspiration.	
	Observe the patient carefully.	
	Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably

5. Fire Figh	ting Measures			
Extinguishing	g media:	Water spray or fog.		
		Alcohol resistant foam.		
		Dry chemical powder.		
		BCF (where regulations permit).		
		Carbon dioxide		
Special firefi	ghting procedures:	Alert Emergency Responders and tell them location and nature of		
Special filefil	sming procedures.	hazard.		
		Wear breathing apparatus plus protective gloves.		
		Prevent, by any means available, spillage from entering drains or water		
		course.		
		Use water delivered as a fine spray to control fire and cool adjacent		
		area.		
		DO NOT approach containers suspected to be hot.		
		Cool fire exposed containers with water spray from a protected location.		
		If safe to do so, remove containers from path of fire.		
		Equipment should be thoroughly decontaminated after use.		
77 1 C*	1 1 1 1			
Unusual fire	and explosions hazards:	Emits toxic fumes under fire conditions		
6 Accidents	al Release Measures			
o. Accidenta	ii Kelease Measures			
Spill respons	e Remo	ve all ignition sources.		
		up all spills immediately.		
		contact with skin and eyes.		
		ol personal contact by using protective equipment.		
		ry clean up procedures and avoid generating dust.		
		in a suitable, labeled container for waste disposal		
Containment		Avoid all personal contact, including inhalation.		
Containment		Wear protective clothing when risk of exposure occurs.		
		Use in a well-ventilated area.		
		OT enter confined spaces until atmosphere has been checked.		
DO NOT a Avoid con When han Keep cont Avoid phy Always wa		OT allow material to contact humans, exposed food or food utensils.		
		contact with incompatible materials.		
		handling, DO NOT eat, drink or smoke.		
		containers securely sealed when not in use.		
		physical damage to containers.		
		s wash hands with soap and water after handling.		
		ood occupational work practice.

PPE 7. Handling and Stora	following set source. Do NOT cut. Use personal	iners may contain residual dust which has the potential to accumulate ttling. Such dusts may explode in the presence of an appropriate ignition, drill, grind or weld such containers I protective equipment	
Store at 4 °C, dry desice	cated and protected f	rom light. Store away from oxidizing agent.	
8. Exposure Controls	/ Personal Protection	an	
Engineering controls	Local exhaust ventilation is required where solids are handled as powders or crystals; even when particulates are relatively large, a certain proportion will be powdered by mutual friction. Exhaust ventilation should be designed to prevent accumulation and re-circulation of particulates in the workplace. If in spite of local exhaust an adverse concentration of the substance in air could occur, respiratory protection should be considered. Such protection might consist of: (a): particle dust respirators, if necessary, combined with an absorption cartridge; (b): filter respirators with absorption cartridge or canister of the right type; (c): fresh-air hoods or masks Build-up of electrostatic charge on the dust particle, may be prevented by bonding and grounding. Powder handling equipment such as dust collectors, dryers and mills may require additional protection measures such as explosion venting. Air contaminants generated in the workplace possess varying "escape" velocities which, in turn, determine the "capture velocities" of fresh circulating air required to efficiently remove the contaminant.		
PPE	Use personal prote		
9. Physical and Chemi	· -1 Decementing		
Physical State	N/A		
Odour	Not available		
Solubility in Water	Not available		
Specific Gravity	Not available		
pH	Not available		
Boiling Point		Not available	
Melting Point		Not available	
Flash Point	N/A		
Vapor Pressure:	N/A		
Vapor Density:	N/A		
10. Stability and Read	etivit <u>y</u>		
Thermal Decomposition		No data available	
Dangerous Products of Decomposition		No data available	
Dangerous Frouncis of Decomposition			

COx, NOx when burned

Dangerous Reactions

Keep container tightly closed in a dry well-ventilated place. Store in 4 °C, dry refrigerator.

11. Toxicological Information

RTECS Number	N/A
Toxicity	No information available.
Health Hazards	Although ingestion is not thought to produce harmful effects, the material may still be damaging to the health of the individual following ingestion, especially where pre-existing organ (e.g. liver, kidney) damage is evident. In an occupational setting however, ingestion of insignificant quantities is not thought to be cause for concern.
Potential Hazards	Not available
Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit(PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A

Reproductive Toxicity: No information available

12. Ecological Information

No information available.

13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
