	Tel. +32-4-3			
Catalog Number	AS-10278			
Relevant identified uses of the substance/preparation and uses advised against	For laborate	ory use only.		
Emergency information	Please conta	act the regional Eurogentec representation in your		
g		Kaneka Eurogentee S.A. directly. (from 8 am to 6		
	pm)			

2. Hazards Identification

Emergency Overview: We do recommend handling all chemicals with caution. Use proper protective equipment (PPE) when handling chemicals. To our knowledge, the hazards of this material have not been thoroughly investigated.

May elicit an immune response such as skin and/or respiratory tract irritation. Wear PPE.

GHS Hazard Classification:

GHS Physical Hazards: Not a dangerous substance according to the GHS

GHS Health and Environmental Hazards

GHS Signal Words: None

GHS Hazard Statements: H303, H313, Maybe harmful if swallowed or in contact with skin. Wear PPE.

GHS Precautionary Statements: P302, P340 May be respiratory irritant if inhaled. May cause respiratory tract irritation.

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

3. Composition

Ingredients/Components:

Chemical Name: Fmoc - Arg(Pmc) - OH;

Molecular formula: C35H42N4O7S

Molecular weight: 662.8 CAS-No 119831-72-0

EC-No N/A

4. First Aid Measures

Inhalation: If dust is inhaled, remove from contaminated area.

Encourage patient to blow nose to ensure clear passage of breathing.

If irritation or discomfort persists, seek medical attention.

Ingestion: If swallowed do NOT induce vomiting.		
		tient forward or place on left side (head-down position, if possible) to
	maintain open airway and p	prevent aspiration.
	Observe the patient careful	
		uth, then provide liquid slowly and as much as casualty can comfortably
	drink.	, f1 ,
Seek medical advice.		
Skin:	If skin or hair contact occurs:	
Skiii.	If skin or hair contact occurs: Flush skin and hair with running water (and soap if available).	
	Seek medical attention in e	
Г		
Eyes:	If this product comes in contact with the eyes:	
	Wash out immediately with	
		of the eye by keeping eyelids apart and away from eye and moving the
		ing the upper and lower lids.
	If pain persists or recurs se	ek medical attention.
5 E'. E'.k'	Management	
5. Fire Fightin		
Extinguishing 1		Water spray or fog.
		Alcohol resistant foam.
		Dry chemical powder.
		BCF (where regulations permit).
		Carbon dioxide
G . 1.C. C. 1	. 7	41 . F
Special firefigh		Alert Emergency Responders and tell them location and nature of
		hazard.
		Wear breathing apparatus plus protective gloves.
		Prevent, by any means available, spillage from entering drains or water
		course.
		Use water delivered as a fine spray to control fire and cool adjacent
		area.
		DO NOT approach containers suspected to be hot.
		Cool fire exposed containers with water spray from a protected
		location.
		If safe to do so, remove containers from path of fire.
		Equipment should be thoroughly decontaminated after use.
		Equipment should be thoroughly decontainmated after use.
Unusual fire as	ıd explosions hazards:	Emits toxic fumes under fire conditions
Chusuai jire ar	ια εχρισσίσης παζάτας.	Enits toxic funes under fire conditions
6. Accidental	Release Measures	
Spill response		ignition sources.
		spills immediately.
	Avoid conta	ct with skin and eyes.
	Control pers	onal contact by using protective equipment.
		n up procedures and avoid generating dust.
	Place in a su	itable, labeled container for waste disposal
Containment		rsonal contact, including inhalation.
		tive clothing when risk of exposure occurs.
		l-ventilated area.
		ter confined spaces until atmosphere has been checked.
		ow material to contact humans, exposed food or food utensils.
	Avoid conta	ct with incompatible materials.

Toll-Free: 800-452-5530 • Tel: 510-791-9560 • Fax: 510-791-9573

	Will all the Do More and the	
	When handling, DO NOT eat, drink or smoke.	
	Keep containers securely sealed when not in use.	
	Avoid physical damage to containers.	
	Always wash hands with soap and water after handling.	
	Use good occupational work practice.	
	Empty containers may contain residual dust which has the potential to accumulate	
	following settling. Such dusts may explode in the presence of an appropriate	
	ignition source.	
	Do NOT cut, drill, grind or weld such containers	
PPE	Use personal protective equipment	
7. Handling and Stora	age	
	l and protected from light. Store away from oxidizing agent.	
Store at 4 C desiccated	rand protected from fight. Store away from oxidizing agent.	
8. Exposure Controls	/ Personal Protection	
Engineering controls	Local exhaust ventilation is required where solids are handled as powders or crystals;	
Engineering controls	even when particulates are relatively large, a certain proportion will be powdered by	
	mutual friction.	
	Exhaust ventilation should be designed to prevent accumulation and re-circulation of	
	particulates in the workplace.	
	If in spite of local exhaust an adverse concentration of the substance in air could occur,	
	respiratory protection should be considered. Such protection might consist of:	
	(a): particle dust respirators, if necessary, combined with an absorption cartridge;	
	(b): filter respirators with absorption cartridge or canister of the right type;	
	(c): fresh-air hoods or masks	
	Build-up of electrostatic charge on the dust particle, may be prevented by bonding and	
	grounding.	
	Powder handling equipment such as dust collectors, dryers and mills may require	
	additional protection measures such as explosion venting.	
	Air contaminants generated in the workplace possess varying "escape" velocities which,	
	in turn, determine the "capture velocities" of fresh circulating air required to efficiently	
	remove the contaminant.	
PPE	Use personal protective equipment	
9. Physical and Chemi	ical Properties	
Physical State	White Powder	
Odor	Not available	
Solubility in Water	Not soluble	
Specific Gravity	Not available	
pacijie Gravity	1100 010110010	

Physical State	White Powder
Odor	Not available
Solubility in Water	Not soluble
Specific Gravity	Not available
рН	Not available
Boiling Point	Not available
Melting Point	Not available
Flash Point	N/A
Vapor Pressure:	N/A
Vapor Density:	N/A

10. Stability and Reactivity

Thermal Decomposition	No data available
Dangerous Products of Decomposition	No data available

Dangerous Reactions	COx, NOx when burned

Keep container tightly closed in a dry well-ventilated place. Store in 4°C refrigerator.

11. Toxicological Information

RTECS Number	N/A
Toxicity	No information available.
Health Hazards	Although ingestion is not thought to produce harmful
	effects, the material may still be damaging to the
	health of the individual following ingestion, especially
	where pre-existing organ (e.g. liver, kidney) damage is
	evident. In an occupational setting however, ingestion of
	insignificant quantities is not thought to be cause for
	concern.
Potential Hazards	Not available
Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit (PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A

Reproductive Toxicity: No information available

12. Ecological Information

No information available.

13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
