Safety Data Sheet (SDS)

Revision Number: <b>3.0</b>		Last updated March	17, 2021			
1. Product and Company Identification						
Product Name:	e: Fmoc - NH - (PEG)1 - CH2COOH					
	Fmoc - AEA	A; Fmoc - 5 - Amino - 3 - Oxapentamoic	Acid			
Manufacturer/Supplier:	AnaSpec, In	c.				
	www.anasp	ec.com				
	34801 Cam	ous Drive				
	Fremont, CA 94555					
	Tel: 510-791-9560					
	Fax: 510-79	Fax: 510-791-9572				
	Email: servi	ce@anaspec.com				
	Kaneka Eur	ogentec SA,				
	Rue du Bois	Saint Jean 5 4102 Seraing Belgium				
	Tel. +32-4-3	3727400				
	Fax. +32-4-	3727500				
	E-mail info	@eurogentec.com				
	Kaneka Eur	ogentec Helpdesk				
	Tel. +32-4-3	3727665				
Catalog Number	AS-65025-1					

# 2. Hazards Identification

*Emergency Overview:* We do recommend handling all chemicals with caution. Use proper protective equipment when handling chemicals. To our knowledge, the hazards of this material have not been thoroughly investigated.

GHS Hazard Classification: Not a hazardous substance or mixture

GHS Physical Hazards: Not a hazardous substance or mixture

GHS Health and Environmental Hazards: Not a hazardous substance or mixture

GHS Signal Words: N/A

GHS Hazard Symbol/Pictogram: N/A

GHS Hazard Statements: N/A

GHS Precautionary Statements: N/A

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

## 3. Composition

Ingredients/Components:

Chemical Name: Fmoc - NH - (PEG)1 -CH2COOH

Molecular Formula: C19H19NO5

Molecular Weight: 341.4 CAS Number: 260367-12-2

EC-No N/A

#### 4. First Aid Measures

Inhalation:	If dust is inhaled, remove from contaminated area.		
	Encourage patient to blow nose to ensure clear passage of breathing.		
	If irritation or discomfort persists seek medical attention.		
Ingestion:	If swallowed do <b>NOT</b> induce vomiting.		
	If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to		
	maintain open airway and prevent aspiration.		
	Observe the patient carefully.		
	Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably		
	drink.		
	Seek medical advice.		
Skin:	If skin or hair contact occurs:		
	Flush skin and hair with running water (and soap if available).		

Toll-Free: 800-452-5530 • Tel: 510-791-9560 • Fax: 510-791-9573

			event of irritation.	
Eyes:		s product comes in contact with the eyes:		
		Wash out immediately with fresh running water.		
		Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving		
		eyelids by occasionally lifting the upper and lower lids.		
	If pain persis	s or recurs s	eek medical attention.	
5. Fire Fight	ing Measures			
Extinguishing	media:		Water spray or fog.	
			Alcohol resistant foam.	
			Dry chemical powder.	
			BCF (where regulations permit).	
			Carbon dioxide	
Special firefig	hting procedure	s:	Alert Emergency Responders and tell them location and nature of	
			hazard.	
			Wear breathing apparatus plus protective gloves.	
			Prevent, by any means available, spillage from entering drains or water	
			course.	
			Use water delivered as a fine spray to control fire and cool adjacent	
			area.	
			<b>DO NOT</b> approach containers suspected to be hot.	
			Cool fire exposed containers with water spray from a protected	
			location.	
			If safe to do so, remove containers from path of fire.	
			Equipment should be thoroughly decontaminated after use.	
Unusual fire d	and explosions h	azards:	Emits toxic fumes under fire conditions	
6 Assidanta	l Dologo Moog			
o. Accidenta	l Release Measu	ires		
Spill response	?	Remove all	ignition sources.	
			l spills immediately.	
			act with skin and eyes.	
			sonal contact by using protective equipment.	
			an up procedures and avoid generating dust.	
			uitable, labeled container for waste disposal	
Containment			ersonal contact, including inhalation.	
			ctive clothing when risk of exposure occurs.	
		Use in a well-ventilated area.		
		DO NOT enter confined spaces until atmosphere has been checked.		
		DO NOT allow material to contact humans, exposed food or food utensils.		
		Avoid contact with incompatible materials.		
		When handling, DO NOT eat, drink or smoke.		
		Keep containers securely sealed when not in use.  Avoid physical damage to containers.		
			sh hands with soap and water after handling.	
			ccupational work practice.	
			tainers may contain residual dust which has the potential to accumulate	
		ignition sou	ettling. Such dusts may explode in the presence of an appropriate	
		-		
		וטע אטז גנ	it, drill, grind or weld such containers

PPE	Use personal protective equipment		
7 Handling and Staw			
7. Handling and Stora	ed and protected from light. Store away from oxidizing agent.		
Store at 4 C desiceate	and protected from fight. Store away from oxidizing agent.		
8. Exposure Controls	/ Personal Protection		
Engineering controls	Local exhaust ventilation is required where solids are handled as powders or crystals; even when particulates are relatively large, a certain proportion will be powdered by nutual friction.  Exhaust ventilation should be designed to prevent accumulation and re-circulation of particulates in the workplace.		
	If in spite of local exhaust an adverse concentration of the substance in air could occur, respiratory protection should be considered. Such protection might consist of:  (a): particle dust respirators, if necessary, combined with an absorption cartridge;  (b): filter respirators with absorption cartridge or canister of the right type;  (c): fresh-air hoods or masks  Build-up of electrostatic charge on the dust particle, may be prevented by bonding and grounding.  Powder handling equipment such as dust collectors, dryers and mills may require additional protection measures such as explosion venting.  Air contaminants generated in the workplace possess varying "escape" velocities which, in turn, determine the "capture velocities" of fresh circulating air required to efficiently		
	remove the contaminant.		
PPE	Use personal protective equipment		
9. Physical and Chemi	ical Properties		
Physical State	N/A		
Odour	Not available		
Solubility in Water	Not available		
Specific Gravity	Not available		
pH	Not available		
Boiling Point	Not available		
Melting Point	Not available		
Flash Point	N/A		
Vapor Pressure:	N/A		
Vapor Density:	N/A		
10. Stability and Read	<u>ctivity</u>		
Thermal Decomposition	n No data available		
Dangerous Products of			
Dangerous Reactions	COx, NOx when burned		
Keep container tightly of	closed in a dry well-ventilated place. Store in 4°C refrigerator.		
11. Toxicological Info	ormation_		
RTECS Number	N/A		

Toxicity	No information available.
Health Hazards	Although ingestion is not thought to produce harmful
	effects, the material may still be damaging to the
	health of the individual following ingestion, especially
	where pre-existing organ (e.g. liver, kidney)
	damage is evident. In an occupational setting however,
	ingestion of insignificant quantities is not thought to be
	cause for concern.
Potential Hazards	Not available
Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit(PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A

Reproductive Toxicity:

No information available

## 12. Ecological Information

No information available.

## 13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

### 14. Transport Information

Hazard Class	N/A	
Identification Number	N/A	
Packing Group	N/A	
Proper Shipping Name (DOT)	N/A	

## 15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

### 16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified

individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
