	Tel. +32-4-3727665			
Catalog Number	AS-26847-F	1		

## 2. Hazards Identification

*Emergency Overview:* We do recommend handling all chemicals with caution. Use proper protective equipment when handling chemicals. To our knowledge, the hazards of this material have not been thoroughly investigated.

GHS Hazard Classification: Not a hazardous substance or mixture

GHS Physical Hazards: Not a hazardous substance or mixture

GHS Health and Environmental Hazards: Not a hazardous substance or mixture

GHS Signal Words: N/A

GHS Hazard Symbol/Pictogram: N/A

GHS Hazard Statements: N/A

GHS Precautionary Statements: N/A

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

*Ingestion:* If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

## 3. Composition

Ingredients/Components:

Chemical Name: Fmoc - L - β – homoalanine; Fmoc - beta - homoAla - OH

Molecular Formula: C19H19NO4

Molecular Weight: 325.4 CAS Number: 193954-26-6

EC-No N/A

### 4. First Aid Measures

Inhalation:	If dust is inhaled, remove from contaminated area.		
	Encourage patient to blow nose to ensure clear passage of breathing.		
	If irritation or discomfort persists seek medical attention.		
Ingestion:	If swallowed do <b>NOT</b> induce vomiting.		
	If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.		
	Observe the patient carefully.		
	Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably		
	drink.		
	Seek medical advice.		
Skin:	If skin or hair contact occurs:		

	P111	4.1			
ĺ		and hair with running water (and soap if available).			
Eyes:		cal attention in event of irritation. uct comes in contact with the eyes:			
Lyes.					
		Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the			
		eyelids by occasionally lifting the upper and lower lids.			
		If pain persists or recurs seek medical attention.			
	ii puin persisi	in pain persists of recurs seek medical attention.			
5. Fire Figl	hting Measures				
Extinguishin	-		Water spray or fog.		
Launguisiun	ід теши.		Alcohol resistant foam.		
			Dry chemical powder.		
			BCF (where regulations permit).		
			Carbon dioxide		
			Carbon dioxide		
Special firef	ighting procedure	s:	Alert Emergency Responders and tell them location and nature of		
			hazard.		
			Wear breathing apparatus plus protective gloves.		
			Prevent, by any means available, spillage from entering drains or water		
			course.		
			Use water delivered as a fine spray to control fire and cool adjacent		
			area.		
			<b>DO NOT</b> approach containers suspected to be hot.		
			Cool fire exposed containers with water spray from a protected		
			location.		
			If safe to do so, remove containers from path of fire.		
			Equipment should be thoroughly decontaminated after use.		
Unusual fire	e and explosions h	azards:	Equipment should be thoroughly decontaminated after use.  Emits toxic fumes under fire conditions

Keep container tightly closed in a dry well-ventilated place. Store in 4°C refrigerator.

### 11. Toxicological Information

RTECS Number	N/A
Toxicity	No information available.
Health Hazards	Although ingestion is not thought to produce harmful effects, the material may still be damaging to the health of the individual following ingestion, especially where pre-existing organ (e.g. liver, kidney) damage is evident. In an occupational setting however, ingestion of insignificant quantities is not thought to be cause for concern.
Potential Hazards	Not available
Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit(PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A

Reproductive Toxicity:

No information available

#### 12. Ecological Information

No information available.

# 13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

### 14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

# 15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

### AnaSpec Inc.

EC Risk Statements: N/A

Other Country Regulations: N/A

#### 16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
