Safety Data Sheet (SDS)

Revision Number: 3.0		Last updated	March 17, 2021
1. Product and Company Ide	ntification		
Product Name:	Fmoc - 2,6 - diaminopimelic acid		
Manufacturer/Supplier:	AnaSpec, In	c.	
	www.anaspec.com		
	34801 Campus Drive		
	Fremont, CA 94555		
	Tel: 510-791-9560		
	Fax: 510-791-9572		
	Email: service@anaspec.com		
	Kaneka Euro	ogentec SA,	
	Rue du Bois Saint Jean 5 4102 Seraing Belgium		
	Tel. +32-4-3727400		
	Fax. +32-4-3727500		
	E-mail info@eurogentec.com		
	Kaneka Eurogentec Helpdesk		
	Tel. +32-4-3727665		
Catalog Number	AS-53120-F	AS-53120-F1	

2. Hazards Identification

Emergency Overview: We do recommend handling all chemicals with caution. Use proper protective equipment when handling chemicals. To our knowledge, the hazards of this material have not been thoroughly investigated.

GHS Hazard Classification: Not a hazardous substance or mixture

GHS Physical Hazards: Not a hazardous substance or mixture

GHS Health and Environmental Hazards: Not a hazardous substance or mixture

GHS Signal Words: N/A

GHS Hazard Symbol/Pictogram: N/A

GHS Hazard Statements: N/A

GHS Precautionary Statements: N/A

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

3. Composition

Ingredients/Components:

Chemical Name: Fmoc - 2,6 - diaminopimelic acid

Molecular formula: C37H34N2O8

Molecular weight: 634.7

CAS-No EC-No N/A

4. First Aid Measures

Inhalation:	If dust is inhaled, remove from contaminated area.		
	Encourage patient to blow nose to ensure clear passage of breathing.		
	If irritation or discomfort persists seek medical attention.		
Ingestion:	If swallowed do NOT induce vomiting.		
	If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to		
	maintain open airway and prevent aspiration.		
	Observe the patient carefully.		
	Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably		

Toll-Free: 800-452-5530 • Tel: 510-791-9560 • Fax: 510-791-9573

	drink.				
		dical advice.			
Skin:		nair contact occurs			
Skin.					
		Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation.			
Evas:					
Eyes:		f this product comes in contact with the eyes:			
		Wash out immediately with fresh running water.			
		isure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the elids by occasionally lifting the upper and lower lids.			
leyelids by occasionally light pain persists or recurs s					
	n pam per	sists of feedis seek	incurcal attention.		
5. Fire Fig	hting Measure	s			
	_				
Extinguishi	пд теага:		Vater spray or fog.		
			lcohol resistant foam.		
			ry chemical powder. CF (where regulations permit).		
			arbon dioxide		
		C	arbon dioxide		
Special fire	fighting procedi	ures: A	lert Emergency Responders and tell them location and nature of		
~ <i>F</i>	, . g		azard.		
			Vear breathing apparatus plus protective gloves.		
			revent, by any means available, spillage from entering drains or water		
			ourse.		
			se water delivered as a fine spray to control fire and cool adjacent		
			ea.		
			O NOT approach containers suspected to be hot.		
			ool fire exposed containers with water spray from a protected		
			cation.		
		If	safe to do so, remove containers from path of fire.		
			quipment should be thoroughly decontaminated after use.		
Unusual fire and explosions hazards:		s hazards: E1	mits toxic fumes under fire conditions		
6. Acciden	ıtal Release Me	asures_			
Spill respor	ise	Remove all ign			
			pills immediately.		
			Avoid contact with skin and eyes.		
Co		Control persor	Control personal contact by using protective equipment.		
			Use dry clean up procedures and avoid generating dust.		
		Place in a suita	able, labeled container for waste disposal		
Containmen	nt	Avoid all pers	onal contact, including inhalation.		
		Wear protective clothing when risk of exposure occurs.			
		Use in a well-ventilated area.			
		DO NOT enter confined spaces until atmosphere has been checked.			
			DO NOT allow material to contact humans, exposed food or food utensils.		
		Avoid contact	Avoid contact with incompatible materials.		
		When handling	g, DO NOT eat, drink or smoke.		
		Keep containe	rs securely sealed when not in use.		
		Avoid physica	Avoid physical damage to containers.		
		Always wash l	Always wash hands with soap and water after handling.		
		Use good occupational work practice			

Toll-Free: 800-452-5530 • Tel: 510-791-9560 • Fax: 510-791-9573

Use good occupational work practice.

	Empty containers may contain residual dust which has the potential to accumulate following settling. Such dusts may explode in the presence of an appropriate ignition source. Do NOT cut, drill, grind or weld such containers	
PPE	Use personal protective equipment	
7 Handling and Chan		
7. Handling and Stora Store at 4 °C desiccate	ed and protected from light. Store away from oxidizing agent.	
8. Exposure Controls	/ Personal Protection	
Engineering controls PPE	Local exhaust ventilation is required where solids are handled as powders or crystals; even when particulates are relatively large, a certain proportion will be powdered by mutual friction. Exhaust ventilation should be designed to prevent accumulation and re-circulation of particulates in the workplace. If in spite of local exhaust an adverse concentration of the substance in air could occur, respiratory protection should be considered. Such protection might consist of: (a): particle dust respirators, if necessary, combined with an absorption cartridge; (b): filter respirators with absorption cartridge or canister of the right type; (c): fresh-air hoods or masks Build-up of electrostatic charge on the dust particle, may be prevented by bonding and grounding. Powder handling equipment such as dust collectors, dryers and mills may require additional protection measures such as explosion venting. Air contaminants generated in the workplace possess varying "escape" velocities which, in turn, determine the "capture velocities" of fresh circulating air required to efficiently remove the contaminant. Use personal protective equipment	
9. Physical and Chemi		
Physical State	N/A	
Odour	Not available	
Solubility in Water	Not available	
Specific Gravity	Not available	
pH	Not available Not available	
Boiling Point	Not available	
Melting Point	Not available Not available	
Flash Point	N/A	
Vapor Pressure:	N/A	
Vapor Density:	N/A	
10. Stability and Read		
Thermal Decomposition		
Dangerous Products of		
Dangerous Products of Dangerous Reactions	COx, NOx when burned	
Dangerous Reactions	COA, ITOA WHOII DUINEU	

Keep container tightly closed in a dry well-ventilated place. Store in 4°C refrigerator.

11. Toxicological Information

RTECS Number	N/A
Toxicity	No information available.
Health Hazards	Although ingestion is not thought to produce harmful effects, the material may still be damaging to the health of the individual following ingestion, especially where pre-existing organ (e.g. liver, kidney) damage is evident. In an occupational setting however, ingestion of insignificant quantities is not thought to be cause for concern.
Potential Hazards	Not available
Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit(PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A

Reproductive Toxicity:

No information available

12. Ecological Information

No information available.

13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
